“The Butterfly Effect”

Podcast 57

3/20/21

This evening we are going to talk about something that we have reviewed before, but at this time it is much more of a reality, because it is tied into the changing and subsequent manifesting of the sons of God. Lord open our eyes to a deeper level of sight and understanding.

We're going to talk about the theory of “chaos”. Now we're not going to talk about the chaos that's going on in the earth, because there's certainly a great deal of that happening, but we're going to talk about the theory of chaos as it has been studied in the field of mathematics.

A number of years ago I had the opportunity to do some experiments within the field of chaos. And, it was very enlightening because this field of analysis was totally new to me. In a nutshell the chaos theory is concerned with finding order out of “disorder”. It is really just establishing the fact that in the realm of the natural plane, you have a great deal of disorder and randomness, in which there is no apparent connection. Yet, if you were to step back a little bit and look at a larger picture or vantage point, you would begin to see that there are underlying patterns that overlap and that what appears to be random, isn't quite so random.

It is a very interesting approach to viewing reality and what we would call random patterns. The key is stepping back far enough to get a much larger picture. When that is done, you begin to see literally order out of disorder. You begin to see patterns where none had existed before. Now within the field of chaos you have something called “the butterfly effect”, which is what we are going to address this evening.

The butterfly effect was first developed in the study of weather patterns, as mathematicians and meteorologists were trying to determine some form of order in being able to predict forthcoming weather. To achieve this, they had to be able to exactly recreate a weather scenario. They found, due to the minute changes and inconsistencies of weather occurrences, that it was literally impossible to recreate a duplicate scenario. They found the minutest change, like the flap of a butterfly's wing, could have a dynamic that would effect weather on the opposite side of the planet. So far reaching, and who would have guessed. Literally the flap of the butterfly's wing could change the manifestation of a weather system; of a tornado, and how it would actually end up manifesting across the globe. They called this, “the butterfly effect”.

As time evolved, they began to give that term to the principle that a very slight change of something could affect a much larger dynamic in something that would seem to have no correlation. And this brings us to the sons of God, and what is happening at this time.

We have addressed this before as the “ripple effect”. We have spoken about the change happening within the sons during this time, and the ripple effect that is radiating out from these changes.

Some of the most brilliant minds of the century have studied and have determined the interconnectedness of the planet as a whole. You could almost look at it like the planet has a matrix

or blanket, over it. In some religions this is actually an intrinsic part of their belief system; the interconnectedness of the earth as a whole. And we have watched and studied this as well.

However, it doesn't stop here. What people do not realize is that this “principle”, this “butterfly effect” as they call it, is at work on a much higher plane; the plane of spirit. Few have any knowledge or awareness of the world of spirit, but this is the level that is effectuating change all across the Father's kingdom. This is truly the starting point.

Stay with me; I know we are taking a little time to lay a foundation here. Let's go to Colossians and read from chapter one, verse 16, 17. The word goes, **“for by Him all things were created, both in the heavens, and on earth, visible and invisible, whether thrones, or dominions, or rulers, or authorities - all things were created through Him and for Him. And He is before all things, and in Him all things hold together”.**

Scientists have been able to dissect creation down to the most quantum level, yet they have not been able to determine what this element is that “holds everything together”. They still can't put their finger on what it is that keeps everything together from just not disintegrating. They call it the “God factor”, or the “God particle”.

Essentially what we're saying is what we've said before; God is the cosmic glue that holds everything together. As the word speaks; *“in Him all things are held together”*. You can even look at your own personal composition and say; “well, what holds me together? God.

This is all so very interesting, because God is coming forth within the Sons very quickly now. This is being established and completed on a very deep and finite level, yet we are still waking up to the reality of what is really happening within the sons of God, and what these changes that are happening to them really mean to all of God's kingdom. Remember we started this word talking about the interconnectedness of all of God's kingdom. The biggest X factor in the entire equation are the sons of God, and what they mean to God's kingdom.

Now we have been tracking on the level of change that is happening in the earth. We have been watching the correlation of the developments happening in both the spirit and in the earth, with the changes and releases happening to the sons of God. And this leads us to a word from the Lord which came several years ago. A word came and He said, **“as my sons change, so the kingdom changes. As my sons come into freedom, so that freedom will begin to set all of creation free”.**

Let's read the scripture in Romans 8:18-20;

“For I consider that the sufferings of this present time are not worthy to be compared with the glory that is to be revealed (within) us. For the creation waits for the revealing of the sons of God. For the creation was subjected to futility, not willingly, but because of Him who subjected it, in hope that the creation itself also will be set free from its slavery to corruption into the freedom of the glory of the children of God.”

There is a butterfly effect happening here, because the sons are totally identified with Christ and the Father, and as such are an intrinsic part of the kingdom deeply interwoven into all of it.

The most minute change that each son experiences individually is having a radiating or ripple effect on the Kingdom of God. That is why your release and your change is so critical.

The smallest change happening to and within the sons of God, like the butterfly effect, effects the entire kingdom. We are still coming to a place of really understanding how interconnected we are to everything concerning the Father's kingdom.

What is happening within the Sons of God during this time is so important, because changes are beginning to unfold much more quickly. The changes happening in the earth are not in direct correlation to the influx of the satanic presence in the earth, nor is it related to events randomly occurring in the earth; everything is entirely predicated upon the change that is happening within the Sons of God. We haven't been that aware, because it's all happening on a plane of spirit, but with the open vision coming forth now, there is an ability to really begin to understand just who and what the sons of God are.

As the word goes, **“As He is, so are we in this world”**. I John 4:17b. Think about that for a second, let this really sink in.

Christ is deeply interwoven into all of the Father's kingdom. And, so are we. Therefore, the smallest grain of change happening within the sons touches all of creation. Every time the Father or the Lord appears to you, you are changed, and so is the kingdom, and this radiates out everywhere, touching every world and dimension that exists, including the plane of the earth that we live in presently.

As the sons change, the kingdom changes. As the Sons become free, the kingdom becomes free. Creation begins to get more free, and that begins to affect even the natural plane because everything is in travail right now, *everything is in travail*, and the freeing of the sons and the freeing of creation is the releasing of the travail that's going on in the earth.

More and more the earth will begin to manifest greater signs of this travail. Today there was a volcanic eruption in Iceland of a major volcano that hadn't erupted in 6,000 years. At the same time there was a series of large earthquakes off the coast of Japan in the 7's. This is not coincidental; these are not random occurrences, they are connected. What we haven't recognized is that these changes are interconnected to what is happening within the sons. In the word it speaks about “signs following”.

These signs will accompany those who have believed: in My name they will cast out demons, they will speak with new tongues; they will pick up serpents, and if they drink any deadly *poison*, it will not harm them; they will lay hands on the sick, and they will recover.”
Mark 16:17-18

We have viewed this from the context of what happened for the disciples, or what we might expect ... but the travail in the earth is also part of these “signs following” as the sons begin to truly manifest.

I expect a great deal more will unfold because changes are coming much more rapidly now, and the sons are beginning to have eyes to see on a level we have never had before. The level of deception and darkness that is happening, notably in the U.S., is astounding and it will only get worse, for America is on a path to destruction. To those who have eyes to see, it will become more and more

apparent. However, to those who do not have eyes to see, even what they have will be (and is being) taken away. (Matthew 13:12)

Satan's plan is moving forward, or so he thinks, because he has positioned his pawns where it will serve him best to be the open conduits to execute his plans. But once again, he is just the unwitting tool of the Father, in a greater plan that is unfolding.

Take a step back and look at what's happening in the whole realm of change. In many ways the Sons are like the butterfly, causing deep levels of change during this time.

How does it go? Just the flap of a wing of the butterfly has a dynamic that can change the whole weather system on the other side of the earth. The Sons are like that butterfly - the most minute change happening within them is effecting the whole kingdom; the natural plane, the spirit world ... everything. This can seem to be a lot to take in, and this is where we need to have a greater revelation of what God is really doing and how important the release of the Sons are. You are effecting everything; your mode of thinking, the appearances happening to you, the inner changes that are unfolding - all of this and more, is having a present tense dynamic on everything. That is why it is equally important on how you are thinking and what you are projecting.

In the book of Proverbs it says "as a man thinks in his heart, so is he" (Proverbs 23:7). We could paraphrase that scripture and say, "as the sons think in their heart, so goes the kingdom of God. There is a correlation here, whether we understand it or not. As the sons go, so goes the kingdom.

We have spoken before about finishing this race. Breaking the tape. This is how important the sons are to the Father's plan.

"Therefore we also, since we are surrounded by so great a cloud of witnesses, let us lay aside every weight, and the sin which so easily ensnares us, and let us run with endurance the race that is set before us." Hebrews 12:1. Any questions that we are in a race? A race to become?

As God's dealings with this generation come to a point of culmination, everything is accelerating now. The judgements in the earth. Your changes. Your deliverances, Your releases. Take a step back and take another look at what is happening. It's about you, but it's not about you, because it's about His kingdom. It is really all about what you are within the kingdom, and to the kingdom. And it is the Father's good pleasure to give you the kingdom. What we are talking about is so much more than we have thought or understood.

Not to sound redundant, but our change is effecting everything that is within the Father's kingdom; worlds, realms, and dimensions. There is so much more to the Father's house than just planet earth, and all of it is being affected. In some ways it is more like a ripple effect, radiating out across the heavens, and that is why we have to be aware that what we are is a lot more than what we think.

The word talks about a handful of seeds spread over the mountains, and the harvest will shake the Cedars of Lebanon. Are the Sons of God that seed cast on the top of the mountains? Absolutely. It is only taking just a handful to bring in the kingdom. Just a handful. Our emergence into sonship is shaking the satanic world. There is a reason why they quiver in fear, because our deliverance means their absolute downfall. The abyss is waiting.

Many years ago the Lord spoke and said, “if you want to know what's going to be in the news tomorrow ... it is what the Sons of God are speaking today”. You could fill that in a couple of different ways because that is really what's happening. You want to get a reading on what's going to happen next week, next month, or tomorrow? It has everything to do with the changes happening within you, right now, because your change is affecting everything.

Be careful not to get caught up with what is going on right now. It doesn't matter what the news media says, whether it's the left, the right or in between, because none of them know. They are part of the illusion, being manipulated by the satanic hosts. The only reality is the changing and manifesting of the Sons of God.

We are not talking about a lot of people here. It's a handful, it's a remnant of a remnant. God is not moving through the multitudes, it is just the handful. It is the present day Gideon's army. If this word is real to you, then you're part of that handful. You're part of the very few. That's why the changes that are happening to the Sons are so important. That's why you can't take it personal, whether it's your inner struggle. or your personal battle. or even your victory; because it's about a lot more than you or I. This is about the Father's kingdom and the release of all of creation.

The more we are committed and given to the Lord and to the Father, the greater our connection at the deepest level, to all of God's kingdom. The Father holds all things together. That is pretty connected. Christ is one with the Father, and we are entering into that similar oneness that Christ prayed for. We are deeply connected because of the indwelling of God, where God has taken up his abode within the Sons.

We've talked before about holy ground. Where is holy ground? A lot of people may think holy ground is over in Israel somewhere. On that mountain where Jesus walked thousands of years ago. That's holy ground. A lot of people believe that “holy ground” is over there in the Holy city and they talk about what great meetings with God they had when they went to the holy land. And you know, if that's what they believe, then God will meet them there. Wherever they feel God is, then that is where God will meet them, because that is their limitation. God will be to people what people believe Him to be.

But the truth is, YOU are holy ground. Wherever you step, is holy. Now, that takes some faith. And wherever the sons step, changes happen.

God is in all things and in Him, all things are held together. Go back to the word in Isaiah and it says, “behold, I will do something new, will you be aware?”. What is He speaking of? That “something new” is what He is doing in you. You are the earth of His habitation. You are the temple made without hands. It is you, but Will you be aware? That has been the struggle and the battleground. The sons must become aware of this great destiny that the God has placed upon them.

Remember the story of Jeremiah. He was a young boy at the age of eight when God called him. I can't imagine what he must have felt, when God spoke. Imagine Jeremiah looking all around the room ... who are you talking to God? “You, Jeremiah.” But I am only eight years old. So often that is how the sons have felt during this time. Subconsciously the mind has cried out, “but I am only eight years old ... how can these things be?” But they can, and they are.

Those that have been called out. Those that have been set aside for this time to be part of the first wave of resurrection life - are so important. This is why your breakthrough is so important.

More and more are beginning to come to the Sons; people and orders of creation from different walks of life, different worlds, and different dimensions of the Father's house. They're coming; they're coming because they sense an imminent breakthrough. They're coming for deliverance and release. Many will come, and that was a word from the Lord 10 years ago. Many will come and the sons will be prepared and ready for them for in the sons will be deliverance. That's where deliverance will be found. **Within you.** Deliverance will not be found in the hospitals, it is going to be found in the Sons of God.
